Deposits or credits are transactions that increase the balance in your account. Withdrawals or debits are transactions that decrease the balance in your account. Transactions received after our business day cutoff times will be processed the next business day.</p> <p>Generally, after we have processed all deposits to your account, we process withdrawals in the following categories and order:</p> <ul style="list-style-type: none"> • Electronic payment transactions and items such as purchases for cashier's checks, certificates of deposit or foreign currency; • Debit card transactions (non ATM transactions); • ATM withdrawals and checks cashed from your account at one of our branches; • Transactions created by you through our BillPay system; • Checks processed and received that day in check number order and; • Miscellaneous adjustments <p>Please remember that it is common that when you write a check, that check may be converted to an electronic item by the person, store or bank receiving the item. If it is converted, that item will be presented to us for payment more quickly than if it had been processed as a check.</p> <p>The posting order of deposits and withdrawals may change from time to time based upon regulatory requirements, technology or industry</p> <p>We recommend that at all times you maintain an accurate record of balances and transactions that you authorize for deposit or withdrawal from your account so sufficient funds are always available.</p>
