INTEREST INFORMATION FOR INTEREST BEARING ACCOUNTS

- Interest begins to accrue on the business day we receive credit for the deposit of non-cash items/collected balances.
- Interest is calculated using the daily balance method. This method applies a daily periodic rate to the principal balance in the account each day.
- Interest is compounded and credited monthly.
- Where noted on the rate sheet, the applicable minimum balance must be maintained each day to obtain the disclosed Annual Percentage Yield (APY).
- Interest rates and Annual Percentage Yields may change daily at our discretion. Current interest rates and APYs are shown on the rate sheet.
- Fees may reduce earnings.
- Interest accrued will be paid, without penalty, at account closing.
